Construction/Erection All risk (ALOP/DSU):

TVPL specializes in the areas of EAR and CAR including ALOP/DSU with their expert insurance professionals and engineers.

Risk Surveys / Insurance advisory

We are dedicated & committed to the mitigation of Risk Exposure. We are proud of how well we do assist in this process, being engaged by and directly assisting SME Businesses, Large Organizations,

Insurance Brokers, Intermediaries, Authorized Representatives, Agents, Advisors, Insurers / Underwriters, Government Agencies & Representative Bodies. Our team undertake risk surveys in order to evaluate physical risks at site(s) by identifying areas where the risk may be reduced. A comprehensive survey report is provided, including pictorial evidence and recommendations, where appropriate. Risk surveys not only reduce the likelihood of an incident occurring and thereby minimize the likelihood of business interruption, injuries, reduced workforce, liability claims, etc., but often also result in a reduction in the insurance premium. Our reports also discuss on EML, PML and recommendations for improvement of risk. We also provide insurance advisory and consultancy services to the clients.
